To Whom It May Concern:

I wanted to relate some of my thoughts about National Cash Systems based on our experience working with them for the past eleven years. We began our relationship with National Cash Systems in January of 2001 and have found them to be one of the top ATM placement and service companies in the entire country. They have a reputation of excellence throughout the industry.

Cash Connect is the ATM Division of WSFS Bank, a 180-year-old, \$4.2 Billion financial institution. We manage over \$350 million in ATM vault cash at about 11,000 ATMs across the country. We work with many of the largest ATM deployers in the country and have found that in terms of service levels and integrity of the operators that National Cash Systems is one of the top ATM companies in the country.

Our relationship with National Cash Systems has grown significantly since its inception. Each time that we seek to increase a customer's limit it requires a thorough due diligence process. We currently have made \$5 million available for their ATMs through our funding relationship and welcome the opportunity to continue to expand our relationship with National Cash Systems as they continue to execute their business model.

It has been our experience that there are numerous companies capable of selling and installing an ATM, but only a few that have the ability to provide an ATM solution that delivers both strong value and extraordinary service levels. It is without reservation that we would submit that National Cash Systems is just such a company.

Please feel free to contact me directly if you have any questions at 302-283-4104, or Clatworthyj@cash-connect.com.

Best Regards,
